

# **SUBCONTRACTORS LIST**

**Last Updated December 31<sup>st</sup>, 2024**

Akeyless uses the third-party vendors, subcontractors, sub-processors or other members, affiliates, of Akeyless, all as listed below (each “**Subcontractor**”) to conduct and preform its business operations and services.

Certain Subcontractors carry out data-processing activities that involve access to customer personal data (“**Customer Data**”), these Subcontractors are referred as “Sub-processors” under applicable data protection laws. The Sub-processors process personal data on behalf of Akeyless’ customers, in accordance with customers’ instructions as communicated by Akeyless, and n strict accordance with the terms of a written contract between Akeyless and the said sub-processor.

Akeyless uses commercially reasonable selection process by which it evaluates the security, privacy and confidentiality practices of proposed Subcontractors that will or may have access to or otherwise process Customer Data.

Akeyless requires its Subcontractors to maintain a written information security program, not less rigorous than Akeyless’ Security Program, available at <https://www.akeyless.io/data-protection-measures/>. Further, in the event of a security breach, Akeyless requires the Subcontractors to immediately inform Akeyless, and cooperate with Akeyless (and to the extent applicable, with Akeyless’ customers) to mitigate the breach. These Subcontractor contracts also include audit rights toward Akeyless, and to the extent applicable towards Akeyless’ customers.

Akeyless considers the locations in which the Subcontractors are established and where would the data be hosted, processed, accesses and transferred when onboarding a new Subcontractor. Akeyless required any Subcontractor to notify Akeyless in case the location has changed.

This list is updated from time to time, including the names and locations of the Subcontractors, Akeyless’ customers shall register below to the Subcontractor change notification to receive updates when Akeyless makes changes to the list below.

The following table describes the countries and legal entities engaged by Akeyless in the provision of Services.
