

Subcontractor and Sub-processor List

Last Updated April 19, 2026

Akeyless uses third-party vendors, subcontractors, sub-processors or Akeyless' affiliates, all as listed below (each "**Subcontractor**") to conduct and preform its business operations and services.

Certain Subcontractors carry out data-processing activities that involve access to customer personal data ("**Customer Data**"), these Subcontractors are referred as "**Sub-processors**" under applicable data protection laws. The Sub-processors process personal data on behalf of Akeyless' customers, in accordance with customers' instructions as communicated by Akeyless, and in strict compliance with the data processing agreement executed between Akeyless and Sub-processor.

Akeyless evaluates Subcontractors' security, privacy and confidentiality means on an annual basis. Akeyless requires its Subcontractors to maintain a written information security program, not less rigorous than Akeyless' Security Program, available at <https://www.akeyless.io/data-protection-measures/>.

Further, in the event of a security breach, Akeyless requires the Subcontractors to immediately inform Akeyless, and cooperate with Akeyless (and to the extent applicable, with Akeyless' customers) to mitigate the breach. These Subcontractor contracts also include audit rights toward Akeyless, and to the extent applicable towards Akeyless' customers.

Akeyless considers the locations in which the Subcontractors are established and where would the data be hosted, processed, accesses and transferred when onboarding a new Subcontractor. Akeyless required any Subcontractor to notify Akeyless in the event the location has changed.

This list is updated from time to time, including the names and locations of the Subcontractors, Akeyless' customers shall register below to the Subcontractor change notification to receive updates when Akeyless makes changes to the list below.

The following tables describe the legal entities engaged by Akeyless in the provision of the services.

Entity Name	Is this vendor a Sub-processor as defined above?	LEI Number or Registration Number	HQ Country and Address	Country where data is stored	Nature of provided service	DPA	Sub-processor List
